BriefCam in a Box
BriefCam for any Business

≡BriefCam

Optimized Hardware Sizing

Seamlessly and confidently implement **BriefCam Video Analytics Software** with pre-configured hardware offerings, integrated, affordable, and scalable to your evolving deployment architectures and business needs.

Various Hardware Configurations Available

BriefCam for any Business

BriefCam pre-configured and optimized hardware offerings empower organizations of all sizes to leverage comprehensive video analytics for increased intelligence and enhanced decision-making. Specially designed for optimal integration, affordability, and scalability, BriefCam hardware solutions flexibly enable extensive applications, whether for enterprise businesses with multiple locations or small-to-mid sized business with low camera counts. BriefCam hardware is equipped with BriefCam Insights software, providing a single, robust device for the comprehensive BriefCam Video Analytics Platform for video search, alerting, and data visualization, including the REVIEW, RESPOND, and RESEARCH modules.

Functionality

REVIEW	|	On-demand video processing for forensics and investigations
RESPOND	|	Real-time alerting as events unfold, triggered by custom rules
RESEARCH	|	Business intelligence dashboards to derive actionable insights

KEY FEATURES

- All BriefCam Modules
  - REVIEW
  - RESPOND
  - RESEARCH
- On-Demand and Real-Time Processing
- Business Intelligence Dashboards

BENEFITS

- Affordable & Flexible
- Scalable for any Sized Business/Community
- Designed to be integrated with **numerous VMSs**
- Expedited Deployments
- Simplified Support & Service

BriefCam Compact

Designed for organizations with 5-100 cameras, BriefCam Compact is a groundbreaking offering that includes a selection of a Tower workstation or rackmount servers and boasts leading video processing capabilities within a compact and space-saving design. BriefCam Compact can be implemented on the Windows or Windows+Linux BriefCam engine and can support processing on-demand, in real-time, or both, depending on hardware implementation.

To learn more about BriefCam Compact and the implementation options, visit our **Compact datasheet**.

Tower Workstations   1U Workstations   2U Server

BriefCam Grow

Today, businesses require agile computing solutions that can scale with their evolving needs. The flexible and adaptable BriefCam Grow offering is designed to support business' expansion and achievement in a dynamic technological landscape. Revolutionize your organization's approach to computational requirements, leveraging intelligent video analytics and efficient video processing to drive crucial operational and security decisions and outcomes. BriefCam Grow can be implemented on the Windows or Windows+Linux BriefCam engine.

- The management server is a Windows-based 1U.
- The processing server is either Windows or Linux-based 1U or 2U.
